

FLOW TYPE: *Deluge*

Pure Rain™ **DELUGE** Stormwater Treatment Box contains filter cartridges containing either Biochar**BASIC**™ or Biochar**PEAT**™ Stormwater Filter Media to capture heavy metals and other pollutants. The cartridges are highly effective for removing/reducing zinc and copper along with many other pollutants. The unique design is a gravity system that both up-flows and saturates the filter media. Pure Rain™ **DELUGE** is designed for easy maintenance.

Pure Rain™ **DELUGE** Stormwater Treatment Box standard size is a 275-gallon tote but other shapes and sizes are available depending on your needs are space available.

STORM-CATCH™
REBOOT™
Stormwater Treatment Media Filter Cartridges
 Storm-Catch™ **REBOOT™** is the easy and affordable way to replace the media in the Pure Rain™ **DELUGE** Stormwater Treatment Box.

Storm-Catch & Reboot are Trademark of Rexius, Eugene OR and used with permission
