

Port of Vancouver USA

December 30, 2019

Dear Ryan,

Over the last few years, working with you and your biochar medias has helped us achieve the best copper test results we have seen to date. I am even more excited to say this happened during a first flush event. Our port wide BMPs combined with your biochar medias throughout our site in your filter socks and catch basin inserts proved to be the exact combination we needed. Your product provided a vital solution that has exceeded our expectations.

Thank you for partnering with us, I look forward to many years of working together and continued success.

Matt Graves LG, CPSWQ
Co-Inventor of the Grattix Box
